ABOUT ME

Product designer. I spent two and a half years at GlycanAge, a longevity biotech company, designing the platform that clinics and practitioners use as well as the consumer side of the product. I studied software engineering, so I work comfortably with developers and can build what I design. I also co-run Braven Studio, a small agency that makes AI-generated video ads.

EXPERIENCE

Co-Founder & Design Lead
2026 - Present
BRAVEN STUDIO · AI MARKETING AGENCY

- Co-founded the agency. We make AI video ads for businesses in North Macedonia.
- Designed the brand and the website, from wireframes to the live site.
- Direct the creative for client ads, mixing AI tools with editing and design.
- Handle client calls from the first brief through to delivery.
